

Dear friends and supporters

We're on the road again! For my fourth charity ride, my friend Roland and I are tackling the next big leg of the Rhine Cycle Route. Starting May 19th, we'll be cycling another 800 kilometers from Basel to the North Sea coast in the Netherlands on our mountain bikes. Every pedal stroke has a clear goal: to raise hope for children in Maputo, Mozambique.

Together, we've already accomplished tremendous things: In 2025 alone, four large sanitation facilities were completed. Today, over **21,000 children** are already benefiting from clean water, safe toilets, and hygiene lessons. This gives them the chance for a healthy life and a real education.

Our strategy for 2026: This year's goal is just as ambitious as our bike tour: We want to free another **20,000 children from their sanitation nightmare.** We are committed to sustainability. Two dedicated maintenance teams ensure the facilities are maintained through prompt repairs. At the same time, we support the training of local plumbers. This is how we guarantee that the aid will have a lasting impact.

Your support makes a direct difference: With your help, you're giving these children a dignified future. **100% of your contribution goes directly to the project without any deductions.** Of course, you can deduct your support from your taxes in Switzerland.

Let's achieve great things together and show that no one has to go it alone – neither on the road nor in life.

Thank you from the bottom of my heart for your support!

Best regards,

Markus

P.S. To make your donation, please click this [LINK](#), which will take you back to the donation form on my fundraising page. First, choose your donation amount. Then, add your personal information. If you are donating from outside of Switzerland, choose payment by credit/debit card.
