

**Dear Friends,**

We are the *Cheeky Cheetahs*, Silvia & Michael – and we've set our sights on nature! 🐆 🏔️  
Just like the cheetah, the fastest land animal on Earth, we're known for our speed and endurance. But now we want to prove that a cheetah can do more than sprint... it can also walk 100 kilometers! 🏃

Our name stands for determination, courage, and the will to go beyond our own limits.

**Why are we doing this?**

Because our hearts beat for underprivileged children in Kenya – the land of the cheetahs. ❤️

This challenge is more than a physical feat; it's a long walk toward a better future.

As a couple, we've already conquered many demanding hikes around the world – but walking 100 kilometers non-stop will be uncharted territory for us.

Now it's time to say: **Challenge accepted!** 🤝 🏆

And this is just the beginning!

We're taking part in **HIKE4KIDS 2025 – ROCKANDHIKE**, an unforgettable 100-kilometer hike around Lake Zurich on August 30–31, 2025. Over 24 hours – day and night – we'll take on this great challenge to raise funds for the education of over 300 children in Kenya.

Together with **Summits4Hope** and a highly motivated community, we support educational projects in Nakuru and Nairobi. Education is the key to a life of dignity and freedom from poverty – and with your help, these children will be able to complete their studies and reach their full potential.

The foundation ensures that all donations are used transparently and responsibly. Plus, your donation is tax-deductible.

We, the Cheeky Cheetahs, have taken on a huge challenge – **100 kilometers for the children of Kenya!** But we can't do it alone – **we need your support!**

Join our team, cheer us on, and contribute with a donation. Together, we can make it happen!

Thank you for pushing us forward.

**A heartfelt thank you for your support!**

**The Cheeky Cheetahs – Silvia & Michael**
